

More about my projects

This is me, Spineci Cosmin and this is my computer. I work in Business Technology as a sidekick for computer parties in U.K. and Seattle. My main role is doing business with you in U.K. or to develop people at my office home town in Bucharest at the National IT Center of the University or University of Dimitrie Cantemir

I do research for Education Technology while studying to teach. I like meeting new friends around the world technology and creating high tech gadgets.

I did a new book on IT but i am embarrassed to show. How willingly to give code to the other or Stick'em up! Now i am helping a senior recruiter to teach kids and others how to use the phone as a toy and phone as a business unit.

I was born in Buzau not far from U.K. having to take a bus and plane or to Seattle two. I am willing to work in Seattle or the U.S. for the past of my farewell father named prick.

Nume: Spineci Cosmin-Mugurel

Email: mugur@engineer.com

Github: mugsp.github.io

Adresa: Romania, Bucuresti, Sector 6, Aleea Salciilor,
Bl. mk-8 , et. 9, ap. 58;

Bought a small diagram today and remained without money.

I am in computer science too

Involved in electronics in creating a nas micro server for IT and human interest.

----- Created a video conference for a small room for private vpn exchange of IT lines and business. t has various features:

----- INTERNAL SERVER; - ON/OFF
MIC OR VIDEO for optimal operation; - Chat type conversation; - Screen and video recording; - Support several conferences as well as teams; - It also works remotely if we are online; - It can be published or on security lines on the external IT network as in any corporation for United Kingdom refugees to talk about the consortium. A good evening.

Looking to invest in a bachelors degree in Computer or Applied science with my father who is a attorney General of Romania at NATO. Also after i tookeed the quiz to flee i seen i am still an engineer.

This is Wednesday 15 of February and as i was to leave the house a watter pipe broke but i managed to get to school in class for wohoooo. Today also i am very business and i have a business plan to discuss to a financial at the Meeting in the Capital of Romania Bucharest at one of the Largest Banks for a survey between fellow colleagues of IT PROVIDERS. Wohoo On this week we will talk about a exam.
